

4-H Club Activities to Consider

Updated August 2020

Looking for ideas to start your brainstorming of club shared learning experiences?

Consider these:

- A field trip to somewhere related to a project – a dairy farm, museum, garden or garden center, local school play or musical!
- Plan a quiz bowl, skill-a-thon, or Jeopardy-like game for your club
- Invite youth members to do demonstrations to share a skill or project they are good at. It can be nearly anything – a snack, a craft, a project, even a sport!
- Invite a professional to come speak to the club on a topic that interests them – a veterinarian, musician, personal trainer, dog groomer, park ranger, Extension staff...
- Plan a club trip to a local community event – a fair, a parade, a festival, an afternoon at a park
- Do a community service project, and celebrate with a snack when you are done
- Have an ice cream sundae party
