

# Wisconsin Custom Manure Applicators With high volume pumps 2023 Directory

In past flooding events, some of the businesses have assisted communities in moving high volumes of water (and wastewater) to reduce flooding concerns, bypass collapsed sewer pipes, protect infrastructure, etc.

This list includes those with readily mobile high volume pumps and hose to move water distances, 6 inch lines can move >1,300 gal/minute, and many operations can run multiple lines from a single pump. If the business has an agitation boat, they may be able to drive into/maneuver into flooded areas to initiate pumping

The goal of this list of for-hire manure applicators serving Wisconsin is to provide livestock producers with a complete listing of application firms, basic contact information, equipment, and area served. The listing of a firm (or lack thereof) does not constitute an endorsement (or lack thereof) by the University of Wisconsin-Madison, Division of Extension and we do not guarantee the accuracy of any information herein. If you wish to have your firm added to the list or to correct an error, please contact Kevin Erb at 920.391.4652 or email to: [Kevin.Erb@wisc.edu](mailto:Kevin.Erb@wisc.edu).

**This list is adapted 7/5/24 for emergency management removing those without pumps and hoses.** If equipment is listed as “available”, the owner has access via a partnership with another firm. An \* or \*\* denotes that updated information was not available, but we believe the applicator is still in business. This list is intended for private farmer use and is not for solicitation purposes. Final update 3/28/2024

Firm Name, Contact, City (Wisconsin unless noted otherwise)	Phone	Equipment	Radius served (miles)
Abts Custom Calvin Abts DePere	920.883.5817	Hose: 1 mile (6 inch) 1 mile (8 inch) w/flowmeters w/GPS as applied mapping Toolbars: ripper, splash, disc Roadside transfer system - dumpster 1 agitation boat 2 semis w/tankers A/T	25
